

Caching strategies

Cache-Aside

Read: App→Cache (miss)→DB→Cache

Write: App→DB, invalidate Cache

Write-Through

Write: App→Cache→DB (sync)

Read: App→Cache (always fresh)

Write-Back

Write: App→Cache (async→DB)

Risk: data loss on cache crash

Write-Around

Write: App→DB (bypass cache)

Read: App→Cache (miss)→DB→Cache
